## PETITION FOR SCHOOL CHOICE THROUGH VOUCHERS

Please send the following or similiar letter to your

NJ State Senator and Assemblymen. To locate their addresses, click [here](#).

We apologize for not having automated this process. However,

the extra effort you take to contact your state representatives will be your  
worthy contribution to the cause of school choice.

On

behalf of the countless parents and children who stand to benefit from your  
efforts, thank you for your involvement in this most worthy

cause.Hon. Congressman/Senator-----:

I appeal to you to lend

your support on behalf of school choice in New Jersey by implementing a school  
choice program. Parents have a natural right to determine the education of their  
children. The needs of each child, combined with the values of the parents,  
should be paramount in determining how and where a child is educated. Under the  
current system, funds for education are involuntarily extracted from the entire  
populace through taxation, so the State has undertaken the responsibility to  
fund the education of all children. Therefore, the State must provide  
educational funding for each child in the State. The selection of the  
educational provider should be made by those with the greatest interest in the  
welfare of each child, that is, the parents. Thank you for your attention to  
this important matter.
